## PROFESSIONAL SUMMARY

---

I'm a software engineer with B.Tech degree with 2+ years of experience on IT Industry. I'm interested to work on mobile application development. I'm always trying to learn new technologies and always research to improve my skills in back end development.

I've experience on front end development & backend development. I love to focus on UI perspective & back end perspective. I'm a good designer also. I'm doing creative web sites and visiting cards on my free time.

My ultimate aim to become a full stack developer within 3 years. For that I'm working on front end and back end. I believe I'm adaptable to any environment and I can handle any stressful situations without much effort.
